

THE METROPOLITAN WATER DISTRICT OF SOUTHERN CALIFORNIA

GET CERTIFIED TODAY

Do business tomorrow

Business Outreach
Program

Fostering Economic
Development and Innovation

Benefits of Registration and Self-Certification

Metropolitan's Business Outreach Program is designed to maximize business opportunities for qualified contractors, consultants and vendors that reflect the diversity of the Metropolitan's 19 million Southern California consumers.

Metropolitan has streamlined vendor registration, self-certification, solicitation and notification with an online system called NETConnect.

- Registration is FREE and open to both small and large businesses
- Once registered, firms receive immediate notification of contract opportunities which fit their profile
- Small businesses can use the system to self-certify as a small business enterprise
- The self certification process takes only minutes to complete
- SBE certification is typically approved within 48 hours
